# Babies Drink Beer

Bayonne, N. J., Officials Seek to Put Them on the Dairy Wagon.

NEW YORK, Aug. 4.—Hayonne, N. J. bebies are tippiers. A report submitted to the board of directors of the city's Child Welfare Station by Dr. W. W. Ribs, medical examiner, shows a major-ity of the infants in the foreign section are started out on a diet of beer long before they are old enough to lift their tiny feet to a shiny brace rail.

"Most of the foreign babies in Bayonne begin receiving their daily portion at beer as soon as they are weaned," Dr. Riba said. "In some instances, it is due to the fact that beer is cheaper than cow's milk, and in others to the belief

that it is a better diet.
"As a matter of fact, the stomach of every baby who receives any quantity of beer regularly is burned so badly that the child, in after years, is a perfect subject for every epidemic—includfeet subject for every epidemic—includ-ing infantile paralysis—that sweeps the country." Hayonne health authorities are con-sidering a plan to make the babies tec-totalers.

### Hohenzollerns Royal Since 12th Century

The House of Hohensellern, whose exclusion from the German throne is beginning to be demanded in the countries of the entente alles, has had princely or royal power since the end of the twelfth century. Great events in the history of the Hohenkellerns have been as follows:

the House to retain the pension provision in the bill.

The amendment heads a list of measures which the federation has urged.

"Citisens of the District should unite in an effort to complete the victory," said Mr. Colladay today.

"The legislation has long been needed."

P. T. Moran president of the Chamber of Commerce, expressed similar views. Mr. Moran said he would like to see every citisens' association reaffirm its position by passing special resolutions to be presented to the House.

Commissioner Newman, Fire Chief Frank J. Wagner, and Major Raymond W. Pullman, Superintendent of Police, joined in the ominion that the lexislation would accomplish much for the good of both departments.

Added impetus was given the movement in support of the amendment by the recent salesment of the Committee on fire prevention of the National Board of Fire Underwriters that the pension provisions of the Washinston police and fire departments are the lowest of any large city in the United States.
